Bareroot digging season starts in November and runs through March. Trees are packed every few days and are ready, in the cooler for prime planting season, generally Feb 15 to April 1. Plugs and pots are ready almost year around. **Planting after April 1 is by election of the grower. Trees planted after April 15 are not guaranteed.**						
If planting after April 15 is un-avoidable, water and mulching is suggested. Watering throughout the first summer may be required for very late plantings.						

Fall 2026 - Spring 2027 Options

Seed Source	In house code	Elevation	Orchard / Native	Gain	Notes
Douglas Fir (5) 051/052/053 N Oregon Coast	1205	1500	Timber Orchard	Medium	Although untested, the N Oregon Coast is adjacent to some of the best native Puget Sound seed lots in the world and for that reason, growers have for many years relied on these sources when options are few. Production appears to be reliable.
Douglas Fir 061 Central OR Coast, Depoe Bay to Coos Bay	1300	1500	Native	None	Untested for Christmas trees. The Puget Sound and North Oregon Coast are well known and appear to be good options, have been heavily used. Many growers are using this coastal source as a logical alternate when better options aren't available.
Douglas Fir 072, South Coast Coos Bay to California	1196	1500	Native	None	Untested for Christmas trees, the S Coast is used by several Californian growers but not usually used for Pacif NW growers who consider it too far out of the known zones. The 72 plugs are about the size of an egg, used for shallow rocky soils, field transplants for P-1 production or potted trees.
Douglas Fir 251 Dallas	1229	<2000	Timber Forest	Elite	The underlying 251 seed lot is a known work horse for both timber and Christmas trees. This orchard achieved highest forestry gains possible and received the rarely awarded Elite level of improvement. Goal information is proprietary but typical targets are improved disease resistance, fast and straight growth.
Douglas Fir 251	1299	1500	Native	None	Last of old reliable seed lot from native forest, (North end of Will valley around Newburg to Dallas), until new collections are provided.
Douglas Fir 251 (6) Coast/Burnt Woods	1224	1000	Timber Orchard	Medium	New Zone (6) is a combo of 251 and 252. Near the Coast Range Crest, it borders the 051/052/053 seed zone now collectively called (5) . All areas of new zones (5) and (6) are heavily and successfully used for Christmas trees
Douglas Fir (8) Will Valley	1340	2000	Timber Orchards	None	New Zone 8 is a combo of 261 and 262. Both are heavily used for Christmas trees.

Douglas Fir 251 Valley Mix Low	1341	<2000	Timber Orchards	Medium	Mix of North end of Will Valley (6) and (8) (Mollalla to Vernonia). Both are heavily used for Christmas trees. Styro 5 are usually around 12", Stry 8 are a new option, as requested for a slightly bigger, stronger tree, priced a bit higher due to fewer per house.
Douglas Fir Will Valley Mix	1091, 1092	<2500	Timber Orchards	Medium	A timber orchard for lower Will Valley with Vancouver Island trees from an old Christmas tree farm. The VI trees were intentionally left by orchard managers who saw the inherent high quality wood characteristics. Although intended for S Oregon, the timber company considers the cross a huge success.
Douglas Fir Vancouver Island	1140	<2000	Christma s Native	None	Vancouver Island (VI) is considered one of the top three sources, along with adjacent Powell River and Taxada Island. Seed is always in short supply and seed prices are increasing, when available at all.
Douglas Fir BTF	1375	<2000	Christma s Tree Orchard	Untested	An in-house orchard mix of Val 3, DG9 and Dixie Mt selected for upright branching, narrow forms and dense foliage. Some could have been from VI origin, Dixie Mt was 251 origin
Noble Fir 053					Fast growing and popular with commercial growers. Seed source is very limited. Order very early
Noble Fir 251	1467, 1468		Christma s Tree Native Forest	None	The adjacent to 053, on the valley side of Fanno Ridge. Possibly a bit tighter 251.
Noble Fir 252	1469		Christma s Tree Native Forest	None	South of 053 and 251, the seed is collected specifically from Mary's Peak. Rated #1 for quality in the original PNWCTA tests. Mary's Peak is very good for minimal cultering or bough production.
Noble Fir 440			Christma s Tree Native Forest		Mt St Helens One of the few good Cascade sources. Medium fast and uniform.

Douglas fir and Noble Fir Seed Source Information

Noble Fir 452			Christmas Tree Native Forest		Black Rock One of the other Cascade sources. A fast growing and dependable seed source. A favorite by many, even when there are several to choose from.
Noble Fir Silkeborg			Danish Orchard Christmas Trees		The Danish orchards are generally slower, more blue in foliage and very good quality for boughs or table tops. Good for premium or natural style production where a lot of culturing isn't desirable.
Noble Fir Overgaard			Danish Orchard Christmas Trees		Tested and sought after source in Denmark where quality is considered more important than any other feature. Described as gray-blue or gray-white. A new seed source here. Generally Danish markets prefer trees that are naturally produced and these were bred for minimum trimming during production.
Noble Fir Horning			BLM Horning Orchard	Medium Gain	Coastal seed lot, target goals are unclear. Suitable for elevations up to 4500', which is normal for most Christmas tree seed stock.
Noble Fir Silver Mt			Private Orchard Closed	Elite Gain	Origin was top rated Sietz/Riley/Fanno. Best in class trees were hand selected for cross breeding, this top rated orchard is now closed.
Noble Fir Orchard Run	1460		Private Orchard Closed		Top selection in orchards and under observation. Mix of parents.

DIY Option	A variety of ideas for DIY presentation	Custom Bag & Card	Potted, gift box
Plugs and Star Bags DIY Option		25 to 100	100-500
		Priced each	Priced each
Gifts are available in this retail option and not subject to the usual 100 minimum. The most affordable option is the DIY plug. Shipped separate from the bags, the customer assembles and finishes the gift with any card or ribbon. The bags can be trimmed shorter and/or covered to customize the look. Subject to available species. These trees are offered with bags included as root balls need protected. Bags are available separately to co-ordinate additional treats such as candy, popcorn, coffee beans or even dog cookies!		\$2.25	\$1.50
		Bags only	Bags only
		\$25/100	\$200/1000
Customized and Ready to Hand Out Option in Star Bags		Priced each	Priced Each
Affordable, small packaged trees to celebrate special events. Earth Day, weddings, memorials, trade shows, fun runs and family reunions are just a few of the events that have used these popular and affordable gifts. Available in small event or wholesale quantities and shipped ready to hand out. The four color card is customized for the event with text and graphics on one side and planting instructions on the other. Please allow 2-3 weeks lead time for any custom printing.		\$3.75	\$3.25
Potted Trees in Gift Boxes		Priced each	Priced Each
Available in green or gold boxes, the pots are 2 7/8" square x 5 1/2" tall and preprinted with planting instructions and shipping permits for out of state transport. Top choices are Noble Fir, Incense Cedar, Western Red Cedar, Giant Sequoia. Native Twinberry. Plants are approx 12" tall, subject to availability. Pick up at the nursery or UPS is available for all options. Add Ribbon \$1, available in Red, Silver or White		\$4.25	\$3.75

Scored 0-10	10 being best	10 being fastest	10 being most upright	10 being least frost damage	10 being most rounded tip form	10 being latest flush	Seed Lots in our Regular Rotation		
Seed Source	Form/ Natural Shape	Vitality, Rate of Growth	Branch Angle	Winter Hardiness	Needle Cover	Flush Time	Notes	Available for 2027	
Turkish Fir, BTF Orchard	Not part of European tests or comparisons						Early Flushing cross of Peavy, Kintigh and Bolu Kokez. Peavy is the most uniform, narrow and dense but not available as seed. Used as genetic contributor to capture those traits	3-0, 3-1, 2 Yr Plugs	
Turkish Fir, Bolu Kokez	7	4	Not rated	8	7	4	The industry standard for wild collection. It is not available for 2026 sales	None	
Turkish Fir, Bolu Kokez Select	7	5	6	8	7	4	Origin is Bolu Kokez, Turkey, Planted as orchard. Best of trees were selected and raised for seed. Criteria was late bud break, overall form and rate of growth for early market	3-0, 3-1	
Turkish Fir, Kongsore Orchard, Denmark	10	7	8	9	9	9, 10	Origin is Bolu Kokez, Turkey. The Orchard dates to 1987. Originally 2 ha, 80 best trees were selected, observed 3 yrs prior to selecting grafts. Selection criteria: late flush, vitality, slim shape, symmetry, many intermodal branches & buds.	3-0	
Turkish Fir, Bays Orchard (PNWCTA)							Selected by the Pacific NW Christmas Tree Association. Not a part of the European comparison testing.	3-0	
Nordman Fir, Ambrolauri Tlugi	7	5	-	6	10	8	The most widely used seed source, it is the European standard for commercial production. From wild, pure stands of the Ambrolauri Forest District on the lowest slopes. Moderate rate of growth, good shoot structure, high density, soft, forward leaning needles. Flush is late.	3-0	
Nordman Fir, Nikortsmina	7	6	7	6	10	8	From the wild Abrolauri Forest District, a reliable neighbor to the Tlugi and Apsheronk areas. The native forests all qualify as organic and are large enough to be a prolific sources of proven seed at affordable pricing.	3-0	

Nordman and Turkish Seed Source Information

Nordman Fir, Apsheronsk Mezmai	6	9	-	9	7	9	East of Black Sea, Russian N Caucasian Mts. Slender trees, forward leaning needles, a bit shorter than Ambrolauri. Slender, vigorous trees, latest flushing of the Nordman group, very winter hardy to -35°C.	None
Nordman Fir, Barjomi Tadzrici	7	5	-	6	9	8	Borjomi -Bakuriani Forest district to 4000'. The best of the Borjomi group, a mixed native forest, more variation than Ambrolauri Tlugi. Considered a highly reliable and popular seed lot.	None
Nordman Fir, Berritzgaard F 665	8	6	-	6	9	8	Origin is Abrolaurie, Georgia, orchard is located on Lolland Island in Denmark. Planted in 1962, rogued for best Christmas trees criteria was late and uniform flush, needle density and internodal branches & buds. Altitude is under 75'. Placed overall 6th out of 35 in trial, best of the Ambrolauri group in the trial.	None
Nordman Fir, Dramstrup	Comparative ratings not currently available						Believed to be a Tvetsted Silkeborg (Barjomi) pool, the second generation orchard is from 10 clones of proven needle retention and form. Uniformity of shape is noted, thought to be a bit faster growing than some. Four locations tested by Kbh University rated at 40% higher value per field than Ambrolaurie.	None
Nordman Fir, Lundbygaard 1000	10	8,4	8,7	6	10	8	A Tversted pool (Silkeborg, Barjomi) group, scored best for shape, had mixed ratings in rate of growth and branch angle over two tests. From an orchard of 12 selected clones. Has marginally later bud break than Ambrolauri. Narrower form and proven needle retention. Top performer overall in these two tests.	None
Nordman Fir Knuthenborg	8	6	7	6	10	8		3-0, 3-1

Described as gray-blue or gray-white. A new seed source here. Generally Danish markets prefer trees that are naturally produced and these were bred for minimum trimming during production.
Noble Fir Horning			BLM Horning Orchard	Medium Gain	Coastal seed lot, target goals are unclear. Suitable for elevations up to 4500', which is normal for most Christmas tree seed stock.
Noble Fir Silver Mt			Private Orchard Closed	Elite Gain	Origin was top rated Sietz/Riley/Fanno. Best in class trees were hand selected for cross breeding, this top rated orchard is now closed.
Noble Fir Orchard Run	1460		Private Orchard Closed		Top selection in orchards and under observation. Mix of parents.

Information on Sizes and Formats		Best Use
Plug	Any plant grown in controlled space (often but not always a greenhouse) in a tray with separate cells for each plant. The plant is popped out of the cell for shipping and retains a bit of soil forming a mini root ball.	Any plug is easier to handle than bare root
72	Egg sized, best suited for transplanting for P-1, potting or rocky shallow soil.	#1 or #2 container, transplants, guest gifts for memorials, weddings, events
Styro 5	5 cu, most efficient with space, lower cost by .02 - .03, most plants are around 6"-12".	Good field conditions
Styro 8	8 cu, 43% larger root ball, added for 2026 by popular demand for larger trees. Most plants are 8"-15"	Average field conditions
Styro 13	13 cu, Used for 2yr transplants, limited quantities	Field or #2 Container
2-0	Two years old. Seed sown directly to field bed, field grown, shipped bare root.	Best value for size, good when budget is a factor
3-0	Three years old. Seed sown directly to field bed, field grown, shipped bare root.	The European Firs need three years in the field
P-1	Two yr old. One year in plug tray in greenhouse, one year in field. Shipped bare root.	Best for difficult conditions or for replacements existing field
2-1	Three years old. Two years in field, dug, root pruned, replanted in field. Shipped bare root.	Where big trees are needed for short leases or early crop
Anderson Band	Plastic pots with bottoms mostly absent, a simple cross band hold potting mix in. 2 7/8" square x 5 1/2" deep. Occasionally 3 5/8" x 6" deep are available. Used for conifers that require excellent drainage.	For planting windows outside of norms or fewer trees are needed
#1, #2, #5	1, 2 or 5 gallons (approximately). May be ordered in small quantities, posted price is for over 25. Purchases of containers are aggregated for best price. Good option when only very small amounts or much larger trees are needed. Inquire for retail pricing of amounts of 1 to 25. Information on Sizes & Formats	Year around planting options, much bigger, more developed forms
